In the city that birthed the United Nations, helped launch the International Day of Peace, and was named for the peaceful St. Francis, we invite you to an important new event that addresses how the Bay Area can lead the way in reducing rates of violence in our nation. We'll explore creating a movement in which citizens, non-profits, government and business can work together to create a powerful shift to a more creative and collaborative culture of peace.

***Get involved in making the Bay Area a pioneer of peacebuilding and a shining example of collaborative community!***
